

# Urgent Notice: New Countervailing Duties and Anti-Dumping Fees on Imported Aluminum Extrusion (Heat Sinks)

On May 7th 2024, the Department of Commerce announced its determination that aluminum extrusion producers and exporters in China, Colombia, Ecuador, India, Indonesia, Italy, Korea, Malaysia, Mexico, Taiwan, Thailand, Turkey, United Arab Emirates, and Vietnam sold aluminum extrusions (and heat sinks made from extrusion) at less-than-fair value in the United States.

If you are currently sourcing heat sinks from one of the listed countries above that utilize the aluminum extrusion process for finished product (ie. **Thermal Extrusions**) or are part of an assembly (ie. **Liquid Cold Plates, Thermoelectric Assemblies, Heat Pipe Assemblies, etc.**) you are currently subject to additional fees charged to the importer of record.

For more detailed information please visit the following links:

- Aluminum Extrusions From the People's Republic of China: Preliminary Affirmative Determination of Sales at Less Than Fair Value, Postponement of Final Determination, and Extension of Provisional Measures
- Preliminary Affirmative Determinations in the Antidumping Duty (AD) Investigations of Aluminum Extrusions from 14 Trading Partners.

## Current Dumping Rates:

Exporter	Dumping Rate
China	376.85%
Colombia	12.42%
Ecuador	22.52%
India	3.44%
Indonesia	9.17%
Italy	15.30%
Malaysia	26.70%
Mexico	13.63%
Korea	2.42%
Taiwan	33.93%
Thailand	3.03%
Turkiye	73.23%
UAE	9.15%
Vietnam	41.84%

## How Can Wakefield Thermal Help Limit Disruptions in Your Supply Chain?

Wakefield Thermal is the **only domestic extruder** dedicated to producing heat sink extrusions since 1957.

Wakefield Thermal has **4 aluminum extrusion** presses located in our US facilities that produce over 53 Million Pounds annually.

Wakefield Thermal has **thousands** of tooled up dies in the United States in various sizes and styles. Click Image Below for list of available shapes:

If our standard extrusion offering does not fulfil your current needs, Wakefield Thermal's Coolvations design team is dedicated to help redesign or optimize your current solution.
